

The figure displays a 2D plot with a grid of black lines. The X-axis is labeled from 0 to 4. The plot shows a grid of black lines with green segments and orange squares at specific intersections. The legend indicates that green lines represent 'Z error' and orange squares represent 'X-stabilizer defect'.

The X-axis is labeled from 0 to 4. The plot shows a grid of black lines with green segments and orange squares at specific intersections. The legend indicates that green lines represent 'Z error' and orange squares represent 'X-stabilizer defect'.
